

DELIVERING ENERGY SOLUTIONS

OUR COMPANY

AMEA Power develops, owns, and operates thermal and renewable power projects in Africa, the Middle East and Asia. The company offers a wide range of power solutions that meet the needs of the emerging markets they cater to, including conventional (Gas, Coal and Oil) and Renewable (Solar PV and CSP, Wind, Hydro and Hybrid) power plants. AMEA Power is led by a world-class management team of professionals with extensive and diversified experience in project development, finance and operations, and a successful track record in project execution.

The accelerating demands for reliable and sustainable power in Africa, the Middle East and Asia coupled with economic growth and development present a sound investment opportunity in power generation. AMEA Power is creating innovative and tailored solutions aimed at meeting these growing regional needs, while contributing to the regions' economic development. The AMEA Power team has also developed a deep understanding of the political and regulatory frameworks of target markets and is experienced in structuring projects to meet best-in-class industry standards in order to mitigate emerging market risks. Consequently, the AMEA Power team is uniquely positioned to deploy its resources, expertise and capital in a fast, efficient and responsible manner.

AMEA Power benefits from broad regional access and a strong business network of leading industry partners. Furthermore, the company enjoys privileged access to capital having developed long-term stable relationships with reputable investors and leading financial institutions, enabling it to promptly mobilize financing when needed.

VISION

To support economic development and improve living standards in Africa, the Middle East and Asia by providing our clients the most suitable long-term energy solutions.

MISSION

To build and expand our project portfolio within our markets with an aim to deliver reliable and sustainable power to our target regions.

VALUES

To inject passion, integrity, respect and professionalism into our business and conduct our operations to international best practice standards.

OUR STRATEGY

Active management: To engage in proactive dialogue with partners, contractors and financiers in order to optimize financial performance and maximize shareholder returns.

Comprehensive Targeted Solutions: To provide flexibility on fuel types and technologies and offer customized energy solutions across the power industry value chain - from project design to asset delivery and operations.

Transparent partner relations: To maintain equitable partnerships and balanced stakeholder relationships, which we believe are crucial to delivering long term, sustainable solutions.

Optimized funding structure: To optimize funding models for each project, building on DFI and ECA resources, capital markets, bank loans and limited recourse debt markets in a manner that optimizes shareholders' risk/return profile while minimizing project funding costs

Top Tier Talent: To attract, develop, empower and retain a diverse pool of best-in-class talent across geographies.

Commitment to CSR and sustainability: To contribute to socio-economic development across its focus countries, increasing development within local economies while protecting and contributing to environmental sustainability and ensuring workforce health and safety

Compliance: To adhere to strict standards on anti-corruption, anti-money laundering (AML), and countering financing of terrorism (CFT), screening partners systematically and thoroughly

Capital appreciation Focus: To de-risk projects from early stage involvement and focus on capital appreciation and preservation throughout the respective life cycle.

OUR STRENGTHS

- Privileged access to capital and transactions
- Professional management team with extensive experience and a successful track record
- Deep knowledge of our market's political and regulatory environment and ability to mitigate and manage emerging market risks
- Strong business network comprised of leading industry players that offer access, complimentary expertise, and resources.
- Ability to mobilize financing as needed thanks to established relationships with banks and financial institutions
